

## BOTTLE WITH GRADUATED DISPENSER

### GENERAL INFORMATION

- Bottle material: polyethylene.
- Graduated dosing container material: PMP.
- The transparent graduated PMP dispenser can be moved along the tube. Depending on its position, the volume of the dosed liquid varies.
- Filling occurs by squeezing the bottle, pushing the liquid along the tube. Once the desired level is reached, the pressure is reduced and the excess liquid returns to the bottle itself.
- Food grade approved.

### TECHNICAL SPECIFICATIONS

Reference	Dosing capacity grad. (ml)	Bottle capacity (ml)	Bottle height (mm)	Bottle diam. (mm)	Unid./bag	Unid./box
