

CENTRIFUGED TUBE TESTS

CYLINDERS

CONICAL

GRADUATED CONICAL

GENERAL INFORMATION

- Material: polypropylene.
- Sterilizable in autoclave.
- Resistant to acids and temperatures up to +120°C.
- Optimum transparency.
- Avoid direct contact with flames.

GENERAL INFORMATION

- Material: polypropylene.
- Optimum chemical and mechanical resistance.
- Sterilizable in autoclave: they resist temperatures up to +120°C.
- Avoid direct contact with flames.

GENERAL INFORMATION

- Material: polypropylene.
- Sterilizable in autoclave: they resist temperatures up to +120°C.
- Indelible graduation. Optimal transparency.
- Optimum chemical and mechanical resistance.
- Avoid direct contact with flames.

CYLINDRICAL TUBE TESTS FOR CENTRIFUGED

Reference	Capacity (ml)	Diameter (mm)	Height (mm)	Uds./bag	Uds./box
K-302	7	12	100	100	2000
K-303	16	17	101	500	3500
K-305	31	24	93	50	800
K-306	48	30	104	25	400
K-307	70	35	99,5	20	320
K-308	110	40	119	25	200

CONICAL TUBE TESTS FOR CENTRIFUGED

Reference	Capacity (ml)	Diameter (mm)	Height (mm)	Uds./bag	Uds./box
K-300	10	16	108	500	4000
K-301	15	18	120	500	3000

GRADUATED CONICAL TUBE TESTS FOR CENTRIFUGED

Reference	Capacity (ml)	Diameter (mm)	Graduat. (ml)	Height (mm)	Uds./bag	Uds./box
K-2300	10	16	0,1	107	100	1200
K-2302	15	18	0,2	118	100	1000
