

## UNIVERSAL TEST TUBE HOLDER

### GENERAL INFORMATION

- Material: polypropylene.
- Large capacity support.
- Self-clamping up to +121 ° C for 20 minutes.
- They can be used dry or in a water bath without danger of floating.
- Its geometry and design does not create obstacles for the circulation of the liquid so as to ensure the same temperature for all the specimens.
- They can be used in the refrigerator without deformation or damage.
- They do not wrinkle or deform.
- The upper height has an alphanumeric reference in relief that allows easy and immediate identification of the samples.
- The colors also allow coding without error the batches of samples that are sent to the laboratory.
- If they are empty, they can be stacked to have more space and maintain order.

Available in the following colors:  
White (03) - Blue (04) - Yellow (06) - Red (10).

### TECHNICAL SPECIFICATIONS

Reference	Cavities diameter (mm)	Number of cavities	Dimensions (mm)	Cavities format	Uds./box
K-564	13	90	105 x 246 x 64	6 x 15	20
K-565	16	60	105 x 246 x 72	5 x 12	20
K-566	20	40	105 x 246 x 72	4 x 10	20
K-567	25	40	125 x 295 x 85	4 x 10	20
K-568	30	24	112 x 300 x 85	3 x 8	20
