

## VIALS FOR LIQUID CLEANING

### GENERAL INFORMATION

- Material: HDPE.
- Food grade approved.
- Made of high-density polyethylene to minimize solvent losses due to the porosity of the container.
- Standard dimensions for the most common devices in the field of substance measurement.
- Special cap with polypropylene screw (mini vial with screw cap)

### TECHNICAL SPECIFICATIONS

| Reference | Capacity (ml) | Model | Diameter (mm) | Height without cap (mm) | Height with cap (mm) | Ud./box |
|-----------|---------------|-------|---------------|-------------------------|----------------------|---------|
| K-933     | 20            | Macro | 26,5          | 57,50                   | 60,10                | 1000    |
| K-934     | 4             | Micro | 13,71         | 52,50                   | 53,60                | 2000    |
